

A Very Fine Home

My name is Larry Fast and I have the pleasure of offering what might be the finest home in Bellingham.

Gragg Miller, President of Coldwell Banker Miller-Arnason, agrees, he said; "This is one of the finest homes I have ever been in, anywhere, at any price". This amazing home with outstanding views is only being marketed to a select few.

Designed by: Todd Fuller

I have many photographs and a slide show on the Internet that you can watch from your own home computer, or I would be happy to come to your home and show you the pictures and talk about the fine features of the home. The photos will give you a good idea of how nice the home is, but are not the same as really seeing it for yourself.

Built by: Gary Cassidy

This prestigious home is not on the MLS and will be shown by appointment only.

Asking \$2,000,000

This spectacular waterfront home on Chuckanut Drive, will excite and edify the most exacting taste, as well as delight the visual palate. Secluded in a serene and spectacular setting, it is surrounded by towering evergreens and magical woods. It boasts bay views, which can only be described as stunning from every vantage point. Less than 5 miles from town, this 3- story home, offers 5500 sq. ft. of impeccable design exuding quiet elegance, and contains 4 bedrooms, 4 baths. Exceptional craftsmanship exists throughout this custom home, edifying the most aesthetic eye. 100-year-old Douglas fir, the same wood used by Bill Gates in his home, is utilized throughout with exceptional craftsmanship and a keen eye to fine details. Entering the home, one walks into the foyer upon Raja marble flooring, underneath a 30-foot lofted ceiling, into what is the epitome of sophisticated design. You are invited into a magnificent living room with continuing vaulted ceilings, surrounded by large picture windows, which invite the bay into the house itself. A large and formal dining room directly off the living room will be the setting to enjoy dinner parties with stunning views of ever-changing waters and sunsets.

The gourmet kitchen boasts a large island with prep sink and granite countertops. Custom cabinets, built in refrigerator and dishwasher, meld together for a seamless architectural quality. No expense was spared in creating this kitchen, which any chef will immediately discern. Directly off the kitchen is an informal dining area and large family room with an inviting fireplace, which is a focal point to this cozy but large family room. Custom-built cabinets hide the entertainment center, providing the room with total non-intrusion of design.

The expansive Master Bedroom Suite has wonderful natural lighting, its own great views, and opens to a private sitting room, containing a romantic fireplace. This is a peaceful and serene room where one can relax and enjoy the breathtaking sunsets. The Master Bathroom has a soothing jetted tub, and glass brick wrap around shower. Huge walk-in closets have ample storage and wonderful lighting with natural light streaming from the skylights. Custom cabinetry prevails throughout with extensive, well-designed storage.

The Upstairs Bedroom has a large en-suite bathroom. There is also a large art studio (or 3rd bedroom) – of over 700 square feet with magnificent natural light streaming through its picture windows and skylights. The lower level also has a large family room and yet another bedroom.

Every part of this home is exquisite. The built-in lighting and fine wood trim details are of the finest quality. This is a home for all seasons, a master work of art.
